CAREER OBJECTIVE

Aspiring MERN Stack Developer bringing 6+ years of operations and team-leadership experience alongside hands-on project experience in secure, scalable web application development. Skilled in frontend-backend integration, authentication, and REST API design. Seeking to combine a strong process-driven background with modern development skills to contribute to software development projects.

TECHNICAL SKILLS

- Frontend: React.js, TailwindCSS, HTML5, CSS3, JavaScript (ES6+)
- Backend: Node.js, Express.js, REST APIs
- Database: MongoDB, Mongoose
- Authentication: JWT, bcrypt
- Tools: Git, GitHub, Postman, VS Code

PROJECTS

Blogging Platform *(MERN, TailwindCSS)*

- Built secure JWT/bcrypt authentication with CRUD posts, categories, comments, and an analytics dashboard.
- Added user subscriptions with notification alerts for new posts, social media sharing (Facebook, Twitter, WhatsApp), and dedicated author profile pages showcasing user bios and published content.

ChatBot Application *(MERN, React, Node.js, Cohere API)*

- Developed an AI-powered chatbot using Cohere API for NLP.
- Implemented JWT authentication and secure user sessions, with a responsive UI built in React and TailwindCSS.

Weather Dashboard *(MERN, React, TailwindCSS, OpenWeather API)*

- Created a responsive weather application with real-time data fetching via Axios.
- Integrated geolocation for personalized forecasts and displayed multi-day weather updates with dynamic UI components.

CERTIFICATIONS

- MERN Stack Development Course — GUVI (Completed, 2026)

WORK EXPERIENCE

Team Leader | *Co-operative Group, London, UK* 2022 – 2023

- Led a team of 12 in daily operations, improving workflow efficiency by 15%.
- Implemented inventory tracking system that reduced stock discrepancies by 20%.
- Coordinated cross-department communication to streamline logistics.

Inventory Controller | *Costcutter Supermarket Group, UK* 2021

- Managed stock levels across multiple branches, ensuring 98% product availability.
- Introduced automated reporting that cut manual errors by 30%.
- Supported procurement team with vendor negotiations, reducing costs.

Operations Controller | *Carista Automobiles, Chennai, India* 2016 – 2018

- Oversaw daily operations and logistics for automobile servicing.
- Designed process improvements that reduced turnaround time by 25%.
- Collaborated with technical teams to enhance customer satisfaction scores.

Logistics Intern | *TVS Automobiles, India* 2015 – 2016

- Increased shipping efficiency by 35% by applying KAIZEN continuous-improvement methodology.
- Assisted in redesigning warehouse layout, reducing material handling time by 20%.
- Coordinated with suppliers and transport teams to improve on-time delivery performance.

EDUCATION

MSc, Logistics & Supply Chain Management | *Kingston University, London, UK* 2020 – 2021

B.Tech, Mechanical Engineering | *VIT University, Vellore, India* 2009 – 2013
